

GREEN YOUR OPERATIONS – TRAINING OPPORTUNITIES

Empowering your team with the right skills is one of the fastest ways to transform hotel operations and boost sustainability. This poster brings together training opportunities in Zanzibar to help you reduce and sort waste, switch to eco-friendly cleaning solutions, and create a greener, more efficient, and more marketable hotel experience.

Get training on how to do waste separation at the source – for better recycling

Waste trainings

Organisations that educate in waste sorting and waste prevention

- CHAKO
- Circular Island
- GREEN COMPOSTING
- Kawa Environment Club
- OZTI
- PERMACULTURE DESIGN COMPANY
- Practical Permaculture
- Electronic Waste Solutions Ltd (WEEE Centre Tanzania)

Make the switch and get trained on how to use eco cleaning products effectively – to harness the products' full potential

Eco-cleaning products are often more concentrated and need to be handled differently to obtain the full potential - learn how to use eco-labelled products correctly.

Eco-cleaning products

- CleanEco (provides trainings on the correct use of eco-labelled cleaning products)
- Grounded
- Ecolab
- EcoZymes
- Diversey

Why eco cleaning products? Choosing eco-labelled cleaning products reduces the release of chemicals into the environment, thereby protecting the groundwater from chemical pollution. It also improves safety for employees, helps protect biodiversity, and strengthens a hotel's green profile towards environmentally conscious tourists.

Tips for responsible travellers

- ↓ Try to reduce your waste and avoid products you can't recycle!
- ✓ Use natural mosquito repellent and try locally made, natural soaps and shampoos!
- ✓ Take empty bottles such as sunscreen, shampoo, etc. home for recycling!
- ⊘ Avoid single-use plastics – switch to reusable or biodegradable alternatives!
- 💧 Refill, don't landfill – use water refill stations!
